As expected, we were presented with a Last, Best and Final proposal today. The committee, along with International Rep Sally Feistel and Federal Mediator Don Maki, discussed this proposal throughout the day with the company coming in one time in the afternoon to answer questions. There has not been much movement by the company on the key issues. We (the committee) will be meeting at the hall all day tomorrow and will be putting out a more detailed CAT letter in the afternoon. We realize this CAT letter doesn't contain a lot of information but we wanted to get the news out about the Last, Best and Final before you heard it from a supervisor or through the media.

Thank you for your support.
In Solidarity,

Bryon Branstrom
