In an attempt to make our message board more useful, it is being shut down on December 28<sup>th</sup>, 2011 for maintenance. Changes will be made and the board should be up and running in about a week. Thank you for your patience.

We know the rumor mill has been very active lately but despite what a few may think, the Alternative Work Schedule Committee and the Local Committee have worked very hard to resolve our 12 hour issues with the Company. Here is the real scoop. As per the company, we will not be starting our pilot areas scheduled to start 12 hour shifts on January 2<sup>nd</sup>. They are still working with I.T. on potential payroll issues. The company said it would like to meet with our Local one more time to make sure that we are in agreement on the issue involving a person that may get an 8 hour restriction. Hang in there, we will get this resolved. Hopefully, only a one or possibly two week delay will be necessary.

In solidarity,

Ken Bower
